**Assessment Strategy:** There are two components of assessment: continuous assessment and the examinable component. To be sure of a pass result you will need to achieve scores of 40 or above in each component. Similarly, to be sure of a higher grade, a minimum score must be achieved in each component (see your *Assessment Handbook*)

**Continuous assessment component:** eTMAs 01 = 10%; eTMA 02 and 03, 15%, eTMA 04, 05 and 06 = 20%

**Substitution:** The substitution rule will not apply.

**Examinable component:** The examination consists of 100% of this component. **In order to pass you must reach the pass mark in both Part I and Part II of the question paper** (see your *Assessment Handbook*).

**Note1:** Insert your precise dates, time and location as notified by your Open University Regional Centre.
